A. Please comment on the following areas and be as specific as possible:

Question #1 • Text Response • 7 responses (88%)
What are the instructor's teaching strengths?

Results:

- Compassionate and engaging! Yunlong was also very responsive and reassuring about late work. The grading was very fair and he made an effort to get the class to participate. The pacing was good during each discussion.
- He is really quick with responses and he is always willing to talk to students about any questions they may have - whether that pertains to the course, grades, or philosophy is general.
- Yunlong is a person who cares very much about the subject and shows general interest in the content even if it is outside of his area of his studies.
- He understand the material well and makes people feel comfortable participating.
- Great explanations, well versed.
- GOOD at understanding students
- Fun discussions!

Question #2 • Text Response • 7 responses (88%)
How can this instructor improve as a teacher?

Results:

- Do not get discouraged. Students can be quiet in classrooms, however that does not mean students are uninterested, but rather just listening to your explanations on some complex topics. Keep pushing and keeping your same enthusiastic demeanor on the topic.
- Any notes regarding the discussion for the course is not towards Yunlong. I wish people would engage more during discussion but he did what he could to spark conversation.
- He is not really engaging in discussion as many students do not show up to discussion and has a hard time having active participation in the class.
- He can talk louder and maybe try to appear more confident. Nobody participated in the section but I dont think thats his fault.
- Being more engaging and interactive
- he is good no need for advice
- All good

Question #3 • Text Response • 6 responses (75%)
Any other comments about this course?

Results:

- I dont like how the course is grades. I want feedback on any assignment I dont score perfectly on. Otherwise I am not learning. I also cant go to office hours to talk about it because this class was virtual like every other day and office hours is only one day a week after class.
- The slides were easy to digest and well structured.
- I appreciate him being an active TA.
- No course content is great.
- I loved it
- none

The data on these anonymous evaluations will be compiled and the information used for the instructor's merit and promotion cases, for departmental evaluations of the instructor's performance, and to improve this course.

A. Please comment on the following areas and be as specific as possible:

Question #1 • Text Response • 13 responses (100%)

What are the instructor's teaching strengths?

Results:

- Instructor makes difficult arguments and dense papers a lot more easier to understand. He encourages a lot of people to speak and interact in class and to attend office hours-- he's very approachable. He is always affirming students' responses instead of rejecting their statement outright and attempts to underscore their strengths in their arguments and builds upon it.
- Yunlong has an exceptional ability to make complex topics accessible and understandable. His discussion sessions are well-organized, engaging, and they use a variety of teaching techniques to keep students interested. They are always available for questions and provide clear, concise answers, which greatly enhances the learning experience
- Discussion slides were very useful and helped me better understand the class, encouraged participation without being too forceful on it
- The instructor is able to answer any question asked by students. Their means of presenting information is also very clear.
- Strong understanding of the topics in the course. Very helpful in discussion sections. Easy to contact.
- The informative slide presentations he provided each week for the discussion section were very helpful.
- They present the lecture material in an accessible manner during their discussion sections.
- Spends a lot of time pointing out the concepts that we need to understand.
- Providing teaching materials and giving feedback to his students.
- Yunlong was extremely good at being responsive to students.
- She is very knowledgeable and clear when she speaks.
- Strengthen your basic knowledge
- articulate well

Question #2 • Text Response • 12 responses (92%)
How can this instructor improve as a teacher?

Results:

- When conducting office hours, they feel that discussing a student's work in-depth somehow classifies as cheating, when that is the whole point of going to office hours in a philosophy class: to discuss philosophy in-depth.
- At times, Yunlong was too quite during discussion so it was hard to stay engaged or know what he was saying. More volume in the classroom would help a lot!
- The instructor has a very quiet speaking voice. More projection would make it easier to hear them, or a classroom with better acoustics.
- I think sometimes your speech was a little quiet or hard to hear even sitting up front
- Sometimes when he speaks, it's too quiet.
- Speak up a little more when teaching.
- Maybe just speak a bit louder.
- Could speak a little louder.
- Implementation of knowledge

Any other comments about this course?

Results:

- Thank you for helping me with my paper assignment both during office hours and outside of regular hours! This course was very challenging for me. Yet, I was able to keep up with writing assignments because you provided me with many insights and help. Considering how busy graduate students are, I'm so thankful for your time, especially when I asked for an irregular office hour appointment.
- I think I would have benefited from the discussion notes being uploaded to canvas, or made as handouts for each discussion.
- I appreciate that he goes above and beyond to make difficult aspects of the class alot more easier to understand.
- It was a very interesting course with a great teacher and great TAs
